

TOURO UNIVERSITY  
CALIFORNIA  
COLLEGE OF OSTEOPATHIC MEDICINE

June 22, 2016

WELCOME TO TOURO UNIVERSITY CALIFORNIA COLLEGE OF OSTEOPATHIC MEDICINE CLASS OF 2020!!

Congratulations on your acceptance to Touro! We are looking forward to meeting and working with all of you as you begin your journey to becoming an Osteopathic physician.

Allow us to introduce ourselves.

- Coordinator for equipment purchasing:
  - Jonathon Forncrook, D.O., FACP, FAAP – Assistant Professor, Primary Care Department, and your primary contact with regard to equipment ordering questions.
- Co-Coordinator for the Osteopathic Doctoring course:
  - Alesia J. Wagner, D.O., FACOFP dist – Associate Professor, Primary Care Department
  - Catherine West, M.D., Assistant Professor, Primary Care Department.

*Please read the following carefully*

The purpose of this letter is to review the required medical equipment that you will need to participate in your Osteopathic Doctoring (OD) labs as you go through the next four years of your curriculum. Dr. Forncrook will be providing one of your first OD classes and labs, where you will learn about taking vital signs and how and when to use certain medical equipment.

As a University, your faculty has chosen specific instruments for you to purchase. These meet the minimum requirements for you to succeed in your education and profession. We do have a preferred vendor, who offers significant discounts and benefits if you purchase through them. Below is a description from Steele Supply Company, who is our preferred vendor.

***When you purchase your equipment from Steele Supply Company, through the special cooperative program with Touro, you will receive Welch Allyn's unconditional student warranty, which protects you against everything other than loss or theft. You will not receive this robust warranty if you purchase elsewhere. If you want to become proficient at physical assessment, you'll need to invest in and practice, practice and practice with the tools of your trade. You'll also receive "once-in-a-career" pricing discounts, a practice eye to perform eye exams and free shipping.***

We have attached the order form and some photos, with model information, to this letter. This equipment is built to last, and is less expensive, generally, than buying each item individually. After 20 years, Dr. Forncrook proudly still displays and uses his student purchased equipment!

TOURO UNIVERSITY  
CALIFORNIA  
COLLEGE OF OSTEOPATHIC MEDICINE

Another **VERY IMPORTANT** benefit from Steele is that they will hold your check/credit card information for billing until **AFTER** your financial aid is distributed. So, you will not have to pre-pay without your monies in place.

There is one stethoscope choice. We do not recommend a more expensive or electronic model, as you will not see any real benefit at this point in your training.

Some of you may already have medical equipment. Our intent is not to insist that you have more than one set. However, we strictly enforce the minimum requirements for the equipment. If you are already in possession of an otoscope/ophthalmoscope set, or stethoscope, you may submit pictures, manufacturer's description/model number, and the purchase date, via email to [jonathon.forncrook@tu.edu](mailto:jonathon.forncrook@tu.edu) or [alesia.wagner@tu.edu](mailto:alesia.wagner@tu.edu). One of us will usually respond within 48 hours. **Do Not** order equipment not on the list and expect retroactive approval. Please note: Pocket models will not meet the minimum requirements. You will still need to purchase other items on the purchase list

We encourage you to look at these items on line and make your choices as soon as you can. If you wish to turn your order in early, it can be sent to Marilyn Grimsley, Sr. administrative Coordinator/Academic Support Manager for the Primary care Department. Her email address is [marilyn.grimsley@tu.edu](mailto:marilyn.grimsley@tu.edu). Her phone number is 707-638-5210. Fax is 707-638-5255. You will have time to complete your order and submit at orientation.

Again, Welcome to Touro! We are looking forward to meeting you very soon!!

Your primary care department faculty  
*Drs. Forncrook, Wagner and West*

## 97200-MS: Classic Smart Set

This set includes the traditional Coaxial Ophthalmoscope, along with the MacroView™ Otoscope and unique lithium ion rechargeable power handle. The handle is half the weight of the traditional handle, yet it delivers twice the battery on-time (120 minutes!).

- Coaxial optical system provides easier entry into small pupils and a larger field-of-view of the fundus, so you'll see what you need to see
- MacroView Otoscope gives bigger, better, sharper views of the ear to help you see more and perform faster, more efficient ear examinations
- Lithium Ion handle delivers twice the on-time in half the weight of NiCad handles les

### This Includes

3.5V Coaxial Ophthalmoscope

## 97200-MSL: Classic Smart Set w/LED

### Coaxial Ophthalmoscope

- Compact size makes access to all controls easy and convenient, which makes learning faster
- Triple-sealed scope keeps dirt and dust away from optics, for years of maintenance-free viewing
- Includes 28 built-in focusing lenses

### MacroView™ Otoscope/Throat Illuminator

- New optics system provides nearly twice the field of view and 30% higher magnification than traditional diagnostic otoscopes
- Focusing wheel allows you to fine tune the view
- Fiber optics transmit cool, white light to the distal tip of the otoscope in a 360 degree bundle for accurate, shadow-free exams and easier cleaning

### Lithium Ion Rechargeable Power Handle

- Weighs half as much as a Ni-Cad handle, delivering ergonomic comfort for any sized hand

## **DS58-11: Platinum Series Tycos® Classic DS58 Hand Aneroids with DuraShock™ Technology**

Gear-free DuraShock design is much more durable than traditional aneroids with gears, allowing you to maintain accurate blood pressure readings with lower lifetime cost. Part of our Platinum Series, this premium gauge provides unsurpassed reliability in a traditional handheld design.

- Super shock-resistant - can withstand up to 60" drop (twice the AAMI Shock Resistant standard) and remain in calibration
- Jeweled movement for long life
- Laser-engraved dial face for accuracy
- Premium inflation system for comfort
- Lifetime calibration warranty
- Latex-free

### **This Includes**

DS58-11
