| Notes                                    | <b><u>Additional Notes</u></b><br>1. Lippincott's Biochemistry is listed twice since it is required by 2 courses. The 7th edition can work for both courses. The 6th edition is ok for Molecular and Cellular Biology but not for Biochemistry.<br>2. As a Touro student you will have access to the ebooks and on-line resources within the user limitations indicated above.<br>3. You do not need to purchase either the Robbins or Harrison's textbook for Biochemistry. The use of the Touro library holdings for these texts will be sufficient for the course. |   |   |
